

EVICTION NOTICE

NOTICE TO VACATE

For the attention of Policy Exchange

This notice is to inform you that you have been found to be exerting undue influence over government policy, and that you must therefore vacate this premises forthwith.

With reference to the Human Rights Act 1988, you have been found to design and advocate policies that, if adopted as part of the Housing and Planning Bill 2015-16, will undermine the ability of millions of people on low and middle incomes to access secure and affordable housing, while redirecting government support towards wealthier individuals.

Please note that we have conducted an equality impact assessment balancing the rights of Policy Exchange to design and lobby for neoliberal policies with the rights of all to a secure, decent and genuinely affordable home.

You must comply with this notice immediately. Failure to comply with result in further action.
